A WELCOME TO MEDIA COVERING GFNY NYC and GP NYC

Welcome to New York City and to a weekend that brings two sides of road cycling together on the same stage.

This year's events include the Michelob ULTRA GFNY World Championship New York City, now in its 14th edition, and Gran Premio New York City, a UCI-sanctioned professional road race. Both take place on the same course and on the same roads, just minutes apart.

This is intentional.

One course. Two races. One idea.

In cycling, professional and amateur racing have always been separated—by licenses, formats, and environments. Even when they happen in the same place, they are usually kept far apart.

At GFNY, we are exploring a different approach: placing professional and open racing next to each other, without mixing rules, classifications, or access.

- Professionals race first, under UCI regulations
- GFNY riders race after, under GFNY rules
- The course, distance, and difficulty are the same

Each race stands on its own. What is shared is the stage.

Why this matters

Most cycling fans are riders themselves. They train, travel, and race. Yet the racing they watch and the racing they do rarely connect.

By putting professional racing and mass participation on the same roads, on the same day, we aim to make that connection visible—without changing what makes either format work.

For professional teams, this means racing in front of a deeply engaged audience that understands the sport from the inside.

For GFNY riders, it means racing on a course that has direct professional relevance, where results are earned and comparable across countries.

What GFNY focuses on

GFNY was built around a few simple principles that remain unchanged:

- open access without licenses
- fair age-group competition
- fully timed racing
- consistency of rules and standards worldwide

Results matter because they fit into a larger structure—from local races to national and continental championships, and ultimately to the GFNY World Championship in New York City.

The presence of professional racing does not change that structure. It reinforces it.

New York City as the meeting point

New York City is not just a finish line. It is where GFNY's global racing structure comes together, and where the professional and open sides of the sport can be seen side by side.

This weekend is not a statement about what cycling should become. It is a practical demonstration of what is already possible.

We are glad you are here to see it firsthand.

Sincerely,

Lidia and Uli Fluhme
Founders of GFNY and GP NYC

ABOUT GFNY GLOBAL PLATFORM

GFNY Global Platform organizes competitive road cycling races around the world, linking local events with National and Continental Championships and a single World Championship held in New York City.

Riders start at GFNY races and progress through the championship levels based on performance. This structure—known as the GFNY Road to NYC—connects everyday racing with a clear and earned path to the World Championship. All GFNY races are fully timed and run with age-group classification. Events are open to a broad range of riders and combine accessible participation with a consistent competitive format.

GFNY's long-standing "**BE A PRO FOR A DAY®**" concept reflects how its races are designed: standardized rules, professional-level timing, and racing against both the clock and direct competitors. GFNY manages its own global rider system, handling registration, results, rankings, and historical participation data directly across all events. While road cycling is its foundation, GFNY also runs select gravel, mountain bike, and running events using the same operational standards.

GFNY works with host cities and local partners worldwide, focusing on athlete experience, operational consistency, and the long-term continuity of its championship structure.

About the Michelob ULTRA GFNY World Championship NYC

The Michelob ULTRA GFNY World Championship New York City is GFNY's flagship race and the final step on the GFNY Road to NYC.

Held annually on a challenging road course in and around New York City, the event brings together riders from more than 90 countries who have earned their place through GFNY races and championships worldwide.

The official website of the Michelob ULTRA GFNY World Championship NYC is NYC.GFNY.COM.

GFNY Pro Series

The GFNY Pro Series places UCI-sanctioned professional races directly alongside GFNY mass-participation events using the same courses and the same road closures.

Professional fields start minutes ahead of the GFNY mass peloton, creating a shared race environment while maintaining clear competitive separation. This format increases

visibility for teams and sponsors and allows professional racing to operate within existing event infrastructure.

The model was first implemented at Gran Premio New York City, where professional teams race the GFNY World Championship course shortly before the amateur start. GP NYC serves as the template for future Pro Series events.

The GFNY Pro Series expands selectively. Additional UCI races are added only where local conditions, funding, and infrastructure support sustainable professional competition. Planned events include Gran Premio Cozumel, held in conjunction with GFNY Cozumel, pending UCI approval.

GFNY is also evaluating the addition of women's professional racing within the Pro Series, beginning with a potential women's race in New York City, developed in partnership with organizations supporting the growth of women's pro cycling.

The official website of the GFNY Pro Series' flagship event, Gran Premio New York City, is gp.gfny.com.

What is Gran Premio New York City?

It is the only UCI professional road race held on the same course and day as the Michelob ULTRA GFNY World Championship NYC, with the pro field starting shortly ahead of the mass-participation race. The format places professional and open racing on the same stage while preserving separate rules, classifications, and competition.

HISTORY OF GFNY

GFNY NYC was first held in 2011, welcoming riders from 56 countries. It was founded by Lidia and Uli Fluhme. Uli first started racing granfondos in Italy in 1996 and raced as an elite cyclist and professional Ironman triathlete. Lidia completed 20 Ironmans, including 7 consecutive Ironman World Championships, and raced professionally for a year.

In 2010, two years after moving to NYC, Uli put his adoration for NYC and passion for the sport of cycling together. Uli introduced Lidia to gran fondo racing in Italy. It was one of the most incredible sports experiences for Lidia. A week later, Lidia and Uli co-founded Gran Fondo New York.

NYC has a marathon and a triathlon, but there was no cycling marathon. Gran Fondo New York brought a true cycling marathon to NYC. The key rules of GFNY are modeled after the granfondo rules of the Italian Cycling Federation.

Over time, GFNY has grown into one of the most internationally represented road cycling races in the world, with participants from more than 90 countries and a majority of riders traveling from outside the United States to compete in New York City.

Beginning in **2014, GFNY expanded internationally**, establishing races in multiple countries under the same core principles: fully timed competition, uniform rules, and comparable race standards. Each event was designed as a true race, with ranked results, age-group classifications, and podium ceremonies across categories.

Today, these races are connected through the **GFNY Road to NYC**, the global competitive structure that links GFNY races worldwide with the GFNY World Championship New York City. Within this framework, GFNY races form the foundation

of the system, while selected events hold National or Continental Championship status, creating a clear hierarchy that leads to New York City as the fixed destination.

While each GFNY race reflects the terrain, culture, and character of its host location, all events operate within the same competitive framework. This consistency ensures that results are comparable and meaningful beyond a single race day, allowing riders from different countries to compete on equal terms.

Across GFNY events worldwide, participants can expect:

- Fully timed racing with ranked results
- Age-group competition and podium awards
- Closed roads or police-controlled traffic with right of way
- Challenging courses designed for competitive racing
- A uniform set of rules and a familiar race experience
- Qualification opportunities for preferred start at the World Championship

The GFNY Road to NYC provides an earned pathway from local racing to a global championship, reinforcing GFNY's focus on open access, fair competition, and results that matter.

SIGNIFICANT CLIMBS

Alpine is now the Muur van Alpine: The Alpine climb was renamed "Muur van Alpine", inspired by Belgium's iconic Muur van Geraardsbergen. This is the first significant ascent of the race course and it is set in Alpine, New Jersey.

Gate Hill is now the Côte de la Porte, with a classic European flair: This name gives a nod to Belgium's iconic cycling culture, with "Côte" meaning "hill" or "slope" in French, and "Porte" referencing the original name "Gate." Known for its punishing gradients and key role in the race, Côte de la Porte now carries a European flair.

Cheesecote is now the Côte de Fromage: the iconic Cheesecote climb has been given a fun, thematic makeover to become the Côte de Fromage. It starts out with a very steep incline and while it tapers off quickly, the road conditions have mostly been "Belgian" (rough!) over the years. It's a tricky climb that has been decisive for the outcome of the races in most years.

GETTING READY FOR REGISTRATION

Q: Can I bring my family and friends with me?

The expo is free admission and open to the public. Yes, bring your family and friends!

Q: What do I need to bring with me for registration?

In order to check-in for the race, please bring a government-issued photo ID (driver license or passport). There is no need to print your registration confirmation.

Q: I don't like to wait. What is a good time to come to the expo, with the shortest wait? The expo is busiest at opening. The expo is less busy after 1 pm on all the days.

Q: How do the jerseys fit? The GFNY jerseys are standard European/race cut, and therefore more fitted in the torso than typical American size. We suggest ordering 1 size larger if you usually wear American-cut jerseys. Here is the size chart: <https://gfny.com/jersey-size/>

Q: Can I try on the race jersey? Yes, you will be able to try on your jersey for size at the fitting rooms. The jersey pickup booth is only for picking up the jerseys. Please don't try on jerseys or ask to swap jerseys at the jersey pickup booth.

Q: What if the jersey size I selected doesn't fit me? Can I exchange my jersey? We have a limited quantity of jerseys available for exchange. If you find the jersey you ordered is the wrong size, go to the JERSEY EXCHANGE stand and request the size you're looking for. We may not have the exact size you need to swap to, but we'll do our best to get a jersey size as close to your exchange size as possible.

Q: The waiver asks for my race number.

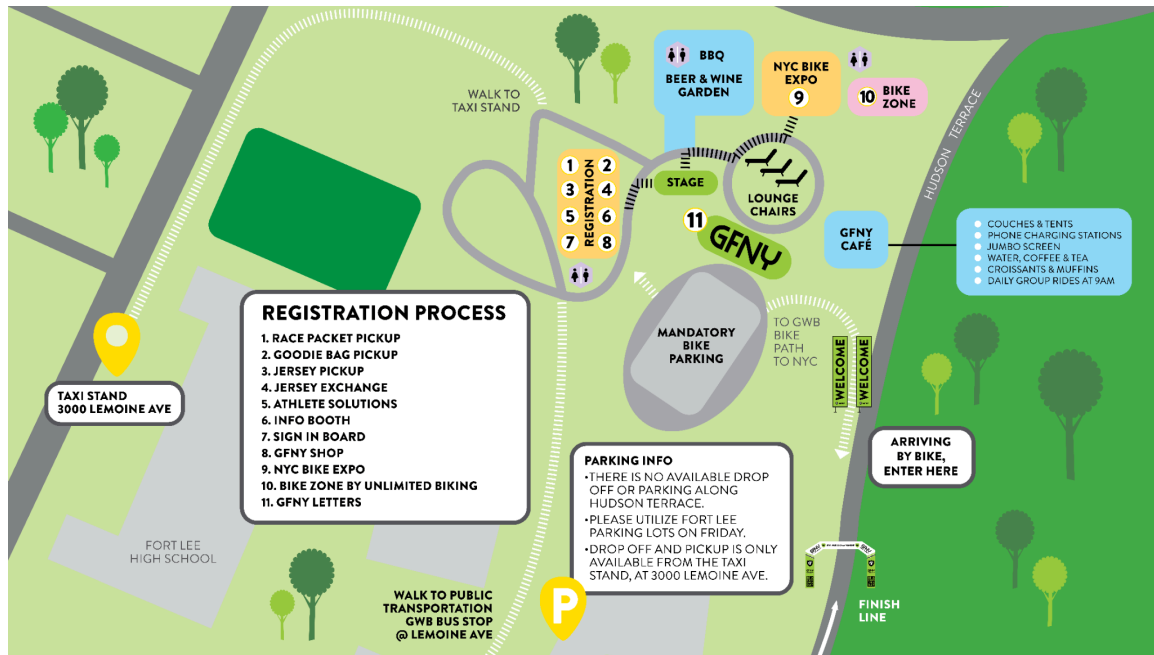

How can I find out my race number before the expo? You will find out your race number at the expo.

Q: Do I have to wear the wristband? Yes, wearing the wristband is mandatory. It will be attached to your wrist when you come to pick up your race packet at the expo and you must keep it on until you leave the Finish Village at the end of the event.

Q: Can I buy the matching bib shorts and other GFNY apparel at the expo? Yes, we have a limited quantity of GFNY apparel and accessories available for purchase at the pre-race expo. The quantities are limited and sold on a first come, first served basis. If you are worried about item availability, we recommend purchasing online in our online shop gfny.com/shop or coming to the expo early on Friday to have the greatest selection and size availability.

Q: My schedule changed and I can't come to NYC. Can my friend pick up my goodie bag for me? Yes. Send an email to your friend, authorizing them to pick up your goodie bag, along with a copy of your photo ID. Then at the expo your friend can show the email and a copy of your ID at the check-in booth to pick up your goodie bag and jersey for you.

Q: I'm flying in on Saturday night. Can my friend pick up my race packet for me? No. For security reasons, every participant has to be present at packet pickup on Friday or Saturday. If you cannot make it to the expo to pick up your race packet, you will forfeit taking part in the event. We recommend changing your flight to arrive in NYC to make it to the expo in time.

Bike Parking is mandatory at all times if you are planning to enter any of the areas within the GFNY Village. Bikes cause tripping hazards and add to congestion. Bikes are not allowed inside the Registration / Expo and Jersey Pickup / Shop tents. If you are heading to pick up your race packet and arrive by bike, head over to Bike Parking upon your arrival.

If you are just walking through or visiting GFNY Café, you do not need to park your bike at Bike Parking.

Yes. The GFNY Welcome Zone and Café will open at 8am on race day. Coffee and bagels and muffins will be available for purchase. Couches and lounge chairs will be available to spectators as they await your arrival. Aside the GFNY Welcome Zone there will be a large screen that will be displaying live video feed and commentary from the race course.

Q: We would like to follow our rider along the race course in our car, is that allowed?

No. GFNY has 3000 participants and if all participants had a personal car following them, it would create a traffic jam and make it impossible for riders to have a clear road to ride on. Plus more than half the course is closed to cars. In addition, outside assistance is not permitted because it is unfair.

Q: I see there is GFNY post race food at the GFNY Finish Village. Can the family eat with GFNY riders?

Yes, all GFNY fans can enjoy the delicious post race meal. Each GFNY participant will show their wristband and receive one free meal and spectators are able to purchase a meal ticket directly at the Finish Village.

Q: Can family and fans check out the GFNY Finish Village in Fort Lee? Do we need any tickets?

GFNY spectators, fans and riders' families are very welcome to join GFNY at the Finish Village in Fort Lee, NJ! The GFNY Finish Village is open to the public, they do not need any tickets.

Q: Where can spectators park in Fort Lee?

Please visit fortleepa.org/parking-lot-locations for exact locations of Fort Lee Municipal Parking Lots. You can use any metered parking available, plus any side street parking except for "residents only" parking.

Q: How could spectators get to the GFNY Finish Village in Fort Lee if we do not have a car? CAR SERVICE / TAXI / UBER:

(fastest option) Spectators can take a car service to GFNY Taxi Stand at Lemoine Ave & Wilson Ave, in front of Fort Lee High School (address: 3000 Lemoine Avenue in Fort Lee).

SUBWAY: If your fans want to walk from the subway to the GFNY Finish Village, it's a 1.7 mile / 2.7km walk.

IDEAL GEAR

The GFNY World Championship is a one-day race that not only has a challenging course but also can present challenging weather conditions. Temperatures can range from 40F/5C at sunrise on the George Washington Bridge to 85F/30C in the afternoon at the finish.

While nine of ten editions of GFNY were held in good racing weather, the 2013 edition will long be remembered as extra tough due to unseasonably cold temperatures and relentless rain.

We've created this guide to help you prepare for the big day. Proper clothing is a deciding factor when it comes to your race day experience and safety. Smart apparel choices will make the day unforgettable for the right reasons.

GFNY's motto **BE A PRO FOR A DAY** also applies to GFNY clothing: we are not taking shortcuts when it comes to materials and fit. You will be wearing the same quality apparel as a professional cyclist.

If the rider is part of a team participating at GFNY, the team can be held liable for this damage.

10. ACCEPTANCE OF RISK

All those who ride and compete under these rules do so at their own risk. No liability shall attach to GFNY or any of its officials with respect to any loss or injury sustained or caused by anyone competing or riding in GFNY.

11. RULE CHANGES

Course, date, rule or any other changes pertaining to the Event can be altered if deemed necessary at the sole discretion of GFNY.

ANTI DOPING

While GFNY is not a WADA Code signatory, we recognize the importance of clean competition, and have taken an unusually proactive stance in implementing an anti-doping program on behalf of clean athletes and the integrity of our sport, which includes adherence to the WADA Prohibited List.

In 2012, GFNY was the first amateur competition in the world in testing athletes out-of-competition (OOC) in addition to the traditional in-competition (IC) testing. The more costly and more difficult OOC testing is widely recognized as the superior testing method.

The use, possession and/or trafficking of banned substances, methods, or the encouragement or counseling to use banned substances, or methods, and/or taking measures to mask the use of banned substances, or methods by any participant in competitions is unacceptable and will not be tolerated.

GFNY has adopted WADA's anti-doping policies and procedures in order to ensure a clean, healthy and fair sporting atmosphere for all athletes.

The rules and regulations of GFNY's Anti-doping Policy aim to:

- Promote GFNY as a drug-free event;
- Uphold and preserve the ethics of sport;
- Ensure that all athletes have an opportunity to compete equally;
- Safeguard the physical health and mental integrity of the athletes;
- Encourage Affiliate Federations to execute similar regulations with their athletes.

Athletes who test positive at GFNY, receive an immediate lifetime ban for all GFNY events. Furthermore, GFNY reserves the right to ask the dooper for any damages to its reputation that are a consequence of his/her positive doping control. If the rider is part of a team participating at GFNY, the team can be held liable for this damage.

Race history:

In 2012, two male riders in the top 10 tested positive for EPO at GFNY.

In 2015, the first man across the finish line and the third woman across the finish line rider tested positive for testosterone.

In 2017, a rider was caught for EPO during out-of-competition testing. The rider paid for the testing.

In 2019, two riders were caught for EPO during out-of-competition testing.

We see these results as a positive sign that our testing works. You can't find cheaters unless you look for them.
